

LED lights

designed and built by GEKA

AGRI

The widely used GEKA-light, now with state-of-the-art LED technology. More economical, more durable and more reliable.

12V, 25W indicator-, stop- and rear position light with indicator control function.

BBS16LEDA

12V, 25,6W indicator-, stop- and rear position light including licence plate illumination and indicator control function.

BBSK16LEDA

OCTAGON

The new LED-light in a solid aluminium casing. Enhanced brightness in durable GEKA-quality with a modern look.

12V, 24W indicator-, stop- and rear position light with indicator control function.

BBS17LEDA

12V, 26W indicator-, stop- and rear position light including licence plate illumination and indicator control function.

BBSK17LEDA

12V, 23W indicator- and front position light with indicator control function.

BP17LEDA

POSITION LIGHTS

Top of the line LED-luminosity in a robust casing featuring different operation modes from 12V to 24V.

Front position light

Multi-Voltage 9-30V

0,3W at 12V and 0,6W at 24V.

PL16

Position light 104x36mm, flat

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V.

PL17

Position light 104x36mm, curved

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V.

PL17/1

Side marker 104x36mm, flat

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V.

SML17

Side marker 104x36mm, curved

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V.

SML17/1

Angle bracket

Available for all position lights.

SML17WH/1

LED rear light set including "AGRI" rear lights (BBSK16LEDA) with 0,5m cable and GEKA connectors **IP67**. Main cable 2x 4-pin connector 7m long, 7-pin plug. Integrated **indicator control function**.

EL16LED

LED rear light set including "OCTAGON" rear lights (BBSK17LEDA) with each 0,5m cable and GEKA connectors **IP67**. Main cable 2x 4-pin connector 7m long, 7-pin plug. Integrated **indicator control function**.

EL17LED
